

CONTENTS

Chemical Sciences

Exploring the topological effect of linear and cyclic macroCTAs during polymerization-induced self-assembly (PISA)

..... *Depeng Yin, Wen Xu, Hualong Zhang, et al.* (1)

Mathematical Sciences

Pancyclicity of randomly perturbed digraph

..... *Zelin Ren, Xinmin Hou* (2)

An empirical Bayes method for genetic association analysis using case-control mother-child pair data

..... *Yanan Zhao, Weiqi Yang, Hong Zhang* (3)

Worst-case conditional value-at-risk and conditional expected shortfall based on covariance information

..... *Tiantian Mao, Qi Zhao, Qinyu Wu* (4)

Earth and Space Sciences

An analytical study on early kick detection and well control considerations for casing while drilling technology

..... *Said K. Elsayed, Hany M. Azab, Adel M. Salem* (5)

Petroleum-contaminated soil extent recorded by $\delta^{15}\text{N}$ and $\delta^{13}\text{C}$ of plants and soils

..... *Zhoufeng Wang, Ruijuan Hao, Juan Wang, et al.* (6)

Deployable boom for Mars Orbiter Magnetometer onboard Tianwen-1

..... *Manming Chen, Zonghao Pan, Tielong Zhang, et al.* (7)
