

## CONTENTS

### ARTICLE

#### Information Science and Intelligence Technology

Coded computing for distributed graph-based semi-supervised learning

..... *Siqi Tan, Li Chen, Weidong Wang* (0401)

Low-complexity energy-aware sensor selection for noise reduction in distributed microphone networks

..... *Jie Zhang, Lu-Zhen Xu, Li-Rong Dai* (0402)

Confidence intervals for high-dimensional multi-task regression

..... *Yuanli Ma, Yang Li, Jianjun Xu* (0403)

Learning attention-based strategies to cooperate for multi-agent path finding

..... *Jinchao Ma, Defu Lian* (0404)

#### Engineering and Materials Science

Advanced functional safeguarding composites with enhanced anti-impact and excellent thermal properties

..... *Wenhui Wang, Sheng Wang, Shuai Liu, et al.* (0405)

Multiobjective optimization of morphologies and performance of Q355C gas metal arc welding based on the NSGA- II

..... *Huajing Weng, Meiyang Feng, Jibin Jiang, et al.* (0406)
